Keep Building Services

Marketing and practical support for your business

We help business owners prepare stronger promotions, organize their sales process, and present products and opportunities clearly. Choose a defined service below, then send us your business details by email or text.

These launch offers become valid after we confirm your scope in writing. We confirm deliverables, timing, price, and any outside costs before invoicing.

Choose your service

Service	Starting price	Best fit
Monthly Marketing	$499 per month	8 graphics and captions, a flyer, planning email, and one revision
Local Marketing Plus	$599 per month	Monthly content and a simple inquiry report for one location

Business Operations Setup	$499	One organized workflow with a tracker and templates
Help Me Sell	$299	Listing copy, buyer overview, document checklist, and marketing preparation
Promotional Products	Written quote	Branded apparel, signs, and printed products
Go 2 Gaming Equipment Desk	Written quote	Verified equipment and parts opportunities

Tell us what you need

Email keepbuildingwithjb@gmail.com or text 786-708-1824 with your business name, the service you want, and your target date. Email and text onboarding are available for every Keep Building service.

For equipment and parts, email go2gaming777@gmail.com. Include the manufacturer, model or part number, quantity, condition requested, and delivery location.

Marketing and creative services

We build each package around one approved business, offer, and set of customer-supplied assets. You review the work before anything is published or distributed.

Local Marketing Plus

$599 per month One business and one location

- 12 social posts with captions and supporting graphics.
- 4 Google Business Profile updates and 1 promotional flyer.
- 1 customer email and a simple inquiry tracker with a monthly report.
- One consolidated revision round and onboarding by email or text.

You provide your logo, usable photos, accurate details, and approved offers. Publishing responsibilities and the monthly schedule are confirmed in your scope. Google updates require an eligible profile and approved manager access; email delivery requires an authorized platform and eligible recipient list.

Ad spend, printing, filming, paid stock, and subscriptions are separate. Each month is separately agreed and invoiced; automatic billing is not included. Content is planned against actual availability. Sales, lead volume, and search rankings are not guaranteed.

Monthly Marketing remains available at $499 per month: 8 branded social graphics and captions, 1 digital flyer, 1 monthly planning email exchange, and 1 consolidated revision. Publishing, ad management, ad spend, filming, photography, printing, and SEO are separate.

Digital Promotion Kit

$249 Static promotional materials

Includes 1 flyer design in 2 social sizes, 3 matching captions, 1 revision, and final exports. Payment is due after proof approval. You provide your offer details and usable assets; media placement and printing are separate.

Short Promo Video Package

$399 Three edited videos of 15 to 30 seconds each

We edit customer-supplied footage or images into three short promotional videos with approved text and a clear next step. Includes one agreed format and one consolidated revision round. Filming, licensed stock, paid music, and talent costs are separate.

Business and seller support

Clear records and a repeatable process make it easier to respond to customers and move work forward. We prepare practical materials that you can keep using.

Business Operations Setup

$499 One workflow

- One tracker built around your chosen workflow.
- One quote template and one intake form.
- A defined reminder process, one handover, and one revision round.

Choose a workflow such as new inquiry to quote, order to delivery, or service request to completion. We agree on required fields, who updates each step, and what counts as complete. Any paid software, custom integration, data migration, or additional workflow is scoped separately.

Help Me Sell

$299 Up to 20 inventory items and a brief of up to 10 pages

Includes listing copy, a concise buyer overview, a document checklist, marketing preparation, and 1 revision. The starter scope covers up to 20 inventory items and a brief of up to 10 pages. We organize your approved summary, item details, condition, quantities, photos, asking terms, and missing-information list.

You approve the facts and confirm your authority to offer the assets. Financial cleanup, reconciliation, valuation work, and larger inventories need a separate quote. This package prepares marketing materials and includes no transaction representation or sale guarantee.

A clear presentation for buyers

Send the records and photos you have, then identify the audience and what may be shared. We organize the materials, keep reported figures labeled, and give you a clear checklist for missing documents. You review the finished packet before distribution.

What to send us

Business or seller name, one contact person, current files, the intended audience, target timing, and the result you want the materials or workflow to support. For sale materials, include the items you actually control and mark confidential information before sharing.

We use seller-provided claims only after you approve them. Missing figures stay marked as missing; projections and reported financial results stay clearly labeled.

Products equipment and getting started

We confirm specifications and fulfillment details before taking an order. A written quote gives you a clear record of what is included.

Promotional Products

Written quote Apparel, signs, print, and branded items

Send your product type, quantity, sizes, colors, logo files, delivery address, and required date. We confirm production specifications, supplier availability, proof, shipping, taxes where applicable, and the total before you approve the order.

Production starts after you approve the final proof and pay the agreed deposit. The deposit covers committed vendor costs. We confirm the balance due date, production timing, and order-change terms in the written quote. Screen colors and physical samples can differ; request a sample quote when color or fit is critical.

Go 2 Gaming Equipment Desk

Written quote Equipment, parts, and existing sales opportunities

Send the manufacturer, model or part number, quantity, required condition, destination, and timing to go2gaming777@gmail.com. We confirm actual availability, seller authority, specifications, shipping, and any applicable transaction requirements before quoting.

No item is represented as in stock until confirmed. Any equipment service fee or sales compensation is agreed for the authorized transaction. Manufacturer compatibility, included components, testing, and warranty terms belong in the final quote.

How to place a service order

- Send the service name, business details, target date, and relevant assets.
- Review the written scope, price, outside costs, and delivery schedule.
- Approve the scope and follow its payment schedule. The $249 kit is paid after proof approval.
- Review the draft, provide one consolidated feedback list where included, and approve the final delivery.

An inquiry or submitted form does not confirm an order or reserve inventory. We confirm an order after scope acceptance and any required payment. For ongoing work, the invoice identifies the service month and the renewal arrangement.
